Catch every hidden price increase.

Aris Voren · voren.dev

A NEW PRICE LIST ARRIVES

Brake pads, from TrailGear:

£9.60 → £5.10

CHEAPER?	THE PACK	PER PAD
No.	4 → 2 pads	+6.2%

A small shop gets dozens of price lists like this. Nobody checks every line.

Demo data: the shop, the suppliers and the prices are made up

WHAT IT COSTS, IN ONE DEMO SHOP

Three suppliers sent new price lists.

19

changes

7

easy to miss: a smaller pack, a footnote

3

formats: PDF, Excel, a photo

€9,155 a year, if you do nothing

LIVE

A paper price list. A phone. One photo.

01 Photo of the printed list, sent to the bot

02 Gemma on AMD reads it, twice

03 What changed, what it costs, what to do

@MarginGuardianbot

WHAT IT DOES

From a price list to a decision.

01 · READ

Every row

PDF, Excel or photo. Prices, packs, footnotes.

02 · COMPARE

With the last list

Product by product, linked to the shop's catalog.

03 · CALCULATE

In euros

Cost per piece, margin before and after, cost per month.

04 · CHECK

Every number

A reviewer in code traces each cost back to its row.

05 · PROPOSE

Three moves

Absorb it, reprice under the cheapest competitor, or negotiate.

06 · WRITE

The email

Ready for the supplier. Nothing is sent: you press the button.

WHY YOU CAN TRUST IT

The AI reads. The code calculates. You sign.

CC-C705	Catena 11 velocità 116 maglie	€ 22,90	5 pz
CC-C720	Cassetta 9v 11-32	€ 19,60	5 pz

* articoli in alluminio. Prezzi IVA esclusa, resa franco nostro magazzino. Pagamento 60 gg d.f.f.m.

Nota: a causa dell'aumento dei costi della materia prima, dal 1° novembre 2026 verrà applicata una maggiorazione del 4% su tutti gli articoli contrassegnati con *, non inclusa nei prezzi sopra indicati.

No number from the model

Margins and euros come from plain code.

Every number has a source

Click it: its row in the document, highlighted.

Read twice, or not used

A photo counts only where two readings agree.

BUILT ON AMD

Open models on AMD GPUs, all the way.

Gemma 4 · AMD Token Factory

Reads PDFs, photos and footnotes.

Evolus

The document extractor and the email tool, running on Gemma. Workspace: Voren.

Qwen · backup

Reads the photo if Gemma does not answer.

Python

Every calculation and every check.

> When a service does not answer, the app says which one and keeps working.

NEXT

From a demo shop to a real one.

01 Connect to the shop: Shopify, WooCommerce

02 The real catalog and sales, not a demo file

03 Price lists straight from the inbox
